

FRUIT & VEGETABLE

Quick Reference Crediting Guide

This “Quick Reference Crediting Guide” is offered to NSLP & SFSP operators as a supplement to the full USDA references to show approximate serving sizes and yields for common fruits and vegetables.

Unless noted, all fruit and vegetable portions should be planned and recorded using cup or volume measures such as $\frac{1}{4}$ cup, $\frac{1}{2}$ cup, 1 cup, etc., versus an ounce or weight measure such as 2 oz, 4 oz, or 8 oz.

This institution is an equal opportunity provider.

VEGETABLES (Subgroup)	Approximate Serving Size and Yield		
Avocado, sliced (Other)	3 slices = ¼ cup
